

Following Your Path

Do you need healing?

Do you know others who need healing?

Do you want to help our ailing planet?

Learn to use the Chiron Healing techniques for well being and personal growth.

Chiron Healing is as much for self healing as it is for helping others. Chiron incorporates the energies that the individual has an affinity with... whether it be light, colour, sound, aroma/essential oils, form, flower essences, gem essences, or any combination of these to bring about healing via the Etheric and Feeling Patterns.

This journey is appropriate for both lay people and professionals alike there are no pre-requisites.

LEARN HOW:

- To clear yourself of negative energies and protect yourself with white light (and also how to use other spectrums)
-
- The anatomy of the Etheric Pattern in the Etheric Pattern and bring them into balance
-
- To feel the 26 levels of energy in the Etheric Pattern and bring them into balance

- To realign your pelvis and correct structural instabilities in the spine and jaw
- .
- To heal your physical body via the Etheric and Feeling Patterns
-
- To work with your Feeling Centre to eliminate 'drains' of energy and develop your "knowing".
-
- To help our planet by directing excess energy into the Earth
-
- Be competent and confident in using Chiron Healing energies whether you are a practitioner or a beginner.
-
- To begin working with the energy of nature using Chironessence and other Essences to balance and heal the Etheric Pattern.
-
- To use the Chiron Healing energies to help others at a distance (absent healing)
-
- To determine how the energy of your name affects the physical structure of your body.

And learn the major philosophies of the Master Chiron as they have been channelled by Jan Thomas.

Registration
